LOGISTICS+®
PASSION FOR EXCELLENCE

IMPORTER OF RECORD (IOR) SERVICES

Logistics Plus® provides complete importer of record (IOR) and exporter of record (EOR) services in and out of 190 countries worldwide.

HIGH VALUE, HIGHLY REGULATED

Delivering high value data center and IT infrastructure equipment to some of the most complex countries around the globe is highly regulated. In most countries, it requires extensive import permits. Logistics Plus has more that 28 years of 3PL and 4PL experience making us your ideal global IOR and EOR service provider.

Whether your global project requires deployment of fully populated racks or onsite white glove build and configuration, we offer services that will suit your needs across all our global offices. In addition to serving the information technology (IT) industry, Logistics Plus serves manufacturers and distributors, network security firms, cloud service providers, and value added resellers across many industries.

Our licensed consultants will remove the IOR and EOR complexities and work directly with manufacturers to ensure accurate product datasheets and certificates are obtained to ensure your projects are completed on time.

LOGISTICS PLUS SOLUTIONS

Across the country or around the world, Logistics Plus has offices located in 50+ countries.
