

# DATA CENTER SERVICES

## LOGISTICS PLUS DATA CENTER SERVICES (DCS)

LP serves clients seeking a one stop global solution for T1-T4 data center projects in the crypto, AI and cloud storage sectors.

We support projects ranging in size/scope from <1MW modular DCs to 100+MW phased multi-year construction DCs.

*Our end to end supply chain management services encompass the following functions:*

- Demand Forecasting & Capacity Management
- Site selection, power generation and management
- Engineering
- Materials procurement, long lead management and capacity reservation
- Warehousing, distribution and inventory management
- Global transportation and freight management
- Delivery, installation, move outs, returns, and ITAD services
- Quality management

## WHY CHOOSE LOGISTICS PLUS?

We provide outstanding value-added data center logistics and supply chain services through cost-effective operational planning, efficient execution, unparalleled visibility, and exceptional project management.

Our teams listen, then design customized and comprehensive supply chain solutions for our clients. Our world-renowned technology suite and customer portal can be operated independently, or can be seamlessly integrated with virtually any ERP, providing data and analytics that drive efficiency and savings.

- **Experience:** Helping our customers, both large and small, grow and succeed in every facet of logistics since 1996.
- **Expertise:** Dedicated project planners, managers, and logistics specialists who understand how things work “on the ground.”
- **Reach:** Access to our established worldwide network of OEMs, fabricators, integrators, freight carriers, installation service providers and flexible warehouse locations.
- **Speed:** Ability to launch projects immediately and scale up rapidly with no red tape.
- **Passion For Excellence™:** We care and find a way to “yes” in everything we do.

### DEMAND FORECASTING & CAPACITY MANAGEMENT

Dedicated PMs experienced in multi-year program, project, product and SKU level forecasts across multiple geographies with multiple vendors.

### SITE SELECTION, POWER GENERATION & MANAGEMENT

Project guidance on both regulated and deregulated energy markets, access to generators and distributors of traditional and renewables energy, experience with PPA / VPPA optimization.

### ENGINEERING

Assisting with site and product requirements, developing specs, coordination of drawings and approvals between owner, contractor, EOR, etc.

### MATERIALS PROCUREMENT, LONG LEAD MANAGEMENT & CAPACITY RESERVATION

Optimizing commercial models (CNCP, ONCP, etc.) and reserving OEM capacity to reduce product delays.

### WAREHOUSING, DISTRIBUTION & INVENTORY MANAGEMENT

Product and BOM management, kitting, assembly, integration, IT clean room and white glove services.

### GLOBAL TRANSPORTATION & FREIGHT MANAGEMENT

Import and export, international air and ocean freight, domestic full truckload and less-than-truckload, intermodal and rail, and out of gauge (OOG) transport (transformers, switch gear, louvers, etc.)

### DELIVERY, INSTALLATION, MOVE OUTS, RETURNS, AND ITAD SERVICES

Items delivered, assembled and installed per clients instructions, haul-away and post move services.

### QUALITY MANAGEMENT

Vendor audits, production progress validation and QC inspection at multiple points throughout fabrication and upon delivery; continuous improvement feedback management.
